Spring Retreat 2012: Prosperity Economics

5/30/12 (2 pm) – 6/1/12 (12 pm) (EDT)

Prosperity dynamics are the prioritized practices used to maximize conscious capitalism through a greater awareness of who you are BEING by what you are DOING. These are grounded in your beliefs regarding scarcity vs. prosperity. When it comes to life success, we consistently see people make one of two mistakes: 1) believing that wealth is accidental; a product of luck or circumstance beyond personal effort, or 2) trying to follow some expert's path to wealth. The first mistake is disempowering, and the second is futile. The key lies in shifting your thinking.

The eight Soul Purpose roles contain specific paths for you to experience happiness, health and wealth. Break free from fear, doubt, and worry and discover what you were born to do by joining us at a collaborative retreat for successful professionals and entrepreneurs. Your tuition covers lodging, transportation to/from the Rochester Airport, evening dinners, course materials, and masterful coaching for three transformative days.
